COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Mail Stop Issue Fee
Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

The Examiner indicates:

Claim 1 is allowed because the prior art does not teach the step of engaging a portion of a second, opposing surface of the carrier substrate with a mechanical self-locking mechanism carried by at least one of the at least two pins as instantly claimed, and in combination with the additional method steps.

Claim 13 is allowed because the prior art does not teach the step of releasing the pins from the head of the pick and place device as instantly claimed, and in combination with the additional method steps.

Claim 24 is allowed because the prior art does not teach the step of removing the pins subsequent to passing at least one electrical signal between the semiconductor device package and the carrier substrate as instantly claimed, and in combination with the additional method steps.

Applicant concurs with the reasons as stated by the Examiner insofar as they comprise a summary, and are exemplary and not limiting. However, the independent claims as allowed include other and different language than that specified by the Examiner, and the allowed dependent claims include other and further features and elements. Accordingly, the scope of the claims must be determined from the literal language of each as a whole, as well as equivalents thereof.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Bradley B. Jensen", followed by a horizontal line extending to the right.
